### Internal Audit Program

~~[This section should be included only by districts with 10,000 or more students] The audit committee shall establish an internal audit program. An "internal audit program" is an audit function conducted by the Board of Education which is independent of other district offices, objectively evaluates the effectiveness of district operations (including governance, risk management, internal controls, and efficiency of operations), and is conducted in accordance with either the current International Standards for the Professional Practice of Internal Auditing or the Government Auditing Standards issued by the Comptroller of the United States. An "audit director" is an individual who directs the internal audit program. With the advisement of the audit committee, the Board of Education may appoint an audit director. Rather than appointing an audit director, the Board of Education may also, with the advisement of the audit committee, contract directly for internal audit services.~~
